

JOB POSTING

Surveyors

Mining and dam construction projects

Northern Ontario | URGENT

△ POSITIONS TO FILL NOW — Help us grow our team △

About us

Hamel Arpentage is a company offering a wide range of surveying services in the construction and mining sectors. With over 22 years of experience, our company is recognized for its professionalism, the quality of its services, and its field expertise. Our organization continues to grow, built on rigorous and structured management.

What we offer

- Positions available immediately
- 12-hour shifts
- 14/14 rotation
- Paid transportation
- Daily lodging allowance
- Work location: Northern Ontario
- Competitive overall compensation and benefits
- Professional and stimulating work environment
- Position duration : 2 years

Job description

Surveyors will work on various projects, notably mining and dam construction projects in Northern Ontario.

They must demonstrate a strong sense of autonomy in the field, adapt to different work environments, and contribute to projects requiring precision, rigour, and attention to detail.

Desired profile

Education and experience

- Training or education in surveying
- Experience in mining or dam construction sites
- Proficiency with Civil 3D software (an asset)
- Experience on large-scale job sites (an asset)
- This position is open to Canadian residents only

Skills and qualities

- Ability to manage assignments independently in the field
- Rigour, organization, and a strong sense of responsibility
- Ability to adapt to demanding job site conditions
